Bond Coat  
Top Coat

Visit [www.rustoleum.com/transformations](http://www.rustoleum.com/transformations) for more information

OTHER SUPPLIES NEEDED (not included in kit)

☐ 2" brushes  
☐ 1/4" nap rollers  
☐ Disposable paint trays  
☐ Drop cloths

☐ Disposable gloves  
☐ Lint-free rags  
☐ Smooth painter's tape

\*For lighter colors, prevent tannin bleed by priming severely worn or bare oak, blocking potential discoloration that may occur to the painted surface.

CALCULATING COVERAGE

Please be sure to validate your complete coverage area and confirm how many kits you will need before starting your project. Visit [rustoleum.com/transformations](http://rustoleum.com/transformations) for how-to videos and more.

LINEAR FEET – FOR QUICKLY ESTIMATING COVERAGE

STEP 1: Measure the length of your top and bottom cabinets (A + B + C + D = linear feet). Each kit includes enough coating to cover 40 linear feet of cabinetry with 1-2 coats on each surface. Linear feet based on average height of standard wall and base cabinets being no more than 34-1/2".

STEP 2: Measure the length of your top cabinets (A + B) in inches and multiply times the height (E). Standard wall cabinet heights are: 12" - 18" and 30" - 42".

STEP 3: Measure the length of your bottom cabinets in inches (C + D) and multiply times the height (F). Standard base cabinet height is 34-1/2".

Add these two totals together and divide by 144 to determine the total square feet you will need to cover. Each kit includes enough coating to cover 100 square feet of cabinetry on each surface.

SQUARE FEET – FOR CALCULATING EXACT COVERAGE NEEDS

STEP 2: Measure the length of your top cabinets (A + B) in inches and multiply times the height (E). Standard wall cabinet heights are: 12" - 18" and 30" - 42".

STEP 3: Measure the length of your bottom cabinets in inches (C + D) and multiply times the height (F). Standard base cabinet height is 34-1/2".

Add these two totals together and divide by 144 to determine the total square feet you will need to cover. Each kit includes enough coating to cover 100 square feet of cabinetry on each surface.

\*In rare instances on severely worn or bare oak, some discoloration may occur to the painted surface when using Pure White, Linen White or Frost. To prevent this from happening, prime first with a stain blocking primer such as Zinsser® Bulls Eye 1-2-3® Primer.

Actual colors shown may vary slightly due to lighting, printing process or surface conditions.
